

Ryan Bridge

ABOUT

With nearly 20 years of experience, I specialize in building dynamic, user-centric, and high-performance web applications. I have a proven track record of leading teams to deliver responsive, accessible solutions while maintaining a strong focus on clean, maintainable code. As a senior developer, I'm committed to fostering innovation, driving quality, and staying ahead of industry trends to consistently exceed expectations.

EXPERIENCE

Senior Software Developer

Software for Good, Minneapolis, MN

June 2014–Present

- Collaborate with clients to understand their needs and deliver tailored solutions.
- Specialize in WordPress for CMS sites and Ruby on Rails for custom applications.
- Build responsive, user-centric experiences with HTML, CSS, JavaScript, and modern frameworks.
- Focus on seamless integrations that align with client goals and optimize system performance.

Project Highlight: WordPress-Salesforce Integration for Carbon Offsets

Built a WordPress-Salesforce integration to streamline onboarding for carbon offset clients. The platform allows forest landowners to easily sync data, simplifying the conservation process. Users navigate an intuitive interface, while the client manages progress in Salesforce, receiving notifications for each step. The focus is on making a complex process seamless and user-friendly.

Senior Developer

Larsen, Minneapolis, MN

March 2007–June 2014

- Developed standards-compliant HTML, CSS, and JavaScript for mobile and desktop client projects.
- Collaborated with designers and producers to create visually appealing web experiences.
- Worked directly with clients and tech teams to ensure smooth website implementation.

Project Highlight: Best Buy Community Giving Platform

Launched a platform enabling teenagers to earn points through activities and donate them to non-profits, with \$250K distributed quarterly. The project facilitated ~\$2.5 million in charitable donations through Best Buy's Community Relations department.

EDUCATION

Bachelors of Science, Interactive Media Design

The Arts Institute International Minnesota

2004-2007

Senior Software Developer

Traverse City, Michigan
